Peek Inside New York City's Most Stylish Hidden Bars

For our new book, [*New York: Hidden Bars & Restaurants*](#) (\$20, JonGlez Publishing), Michelle Young and I scoured the city for Prohibition-era speakeasies, clandestine cocktail bars, and exclusive lounges. From a whimsical watering hole below the Woolworth Building to a members-only arts club in a Chelsea townhouse, here are 14 of the most gorgeous locations in the book.

Lantern's Keep

Savvy imbibers know that if the lantern on the Iroquois Hotel's façade is lit, Lantern's Keep is open for business. The elegant space looks more like a Parisian Belle Époque salon than a midtown bar, with Impressionist-style paintings of ballerinas and Louis XIV chairs upholstered in powder-blue velvet.
